

Inspired by similar initiatives in Liège, Namur and Verviers, MASP-B is a tool for solidarity and financial support. It helps cover medical and paramedical expenses that are not reimbursed by the CPAS 'medical card'.

Practicalities:

Once you register for MASP-B and pay your monthly membership fee, you can visit the office during its opening hours to get your expenses reimbursed upon presentation of an invoice or receipt (and a prescription for certain expenses). The office will also provide administrative support to help you access medical care.

The insurance is entirely self-managed. During regular assemblies, members collectively decide on the amount of the membership fee (for example 5 euros a month) and which expenses can be reimbursed (think of baby milk and nappies, medications, medical consultations, glasses or orthopedic insoles). These assemblies can, for instance, be held twice a year.

To launch this mutual aid organization, we need both financial and practical support. MASP-B relies on external funding to operate, so we are actively seeking donations. MASP-B also needs volunteers for the general organisation, office services and bookkeeping.

If you have ideas for funding, want to volunteer, or would like to benefit from this mutual aid organization,
please contact us at => masp@brxsl.org

Agenda :

- *Throughout January: Information tour along occupied buildings
- * 18 January: Zero Assembly (before the official launch)
